Subject to the terms and conditions of this License, Licensor hereby grants Licensee a worldwide, royalty-free, non-exclusive, perpetual (for the period of the duration of the Licensor's economic rights in the Work), license to exercise the rights in the Work as stated below:

- a. to Reproduce the Work, to incorporate the Work into one or more Collections, and to Reproduce the Work as incorporated in the Collections;
- b. to create and Reproduce Adaptations provided that any such Adaptation, including any translation in any medium, takes reasonable steps to clearly label, demarcate or otherwise identify that changes were made to the original Work. For example, a translation could be marked "The original work was translated from English to Spanish," or a modification could indicate "The original work has been modified";
- c. to Distribute and Communicate to the Public the Work including as incorporated in Derivative Works; and,

The above rights may be exercised in all media and formats whether now known or hereafter devised. The above rights include the right to make such modifications as are technically necessary to exercise the rights in other media and formats. All rights not expressly granted by Licensor are hereby reserved.

Where the licensor is the owner of the sui generis database rights (protection of database maker's rights) under the national law, the licensor will waive these rights.

## **4. Restrictions.**

The license granted in Section 3 above is expressly made subject to and limited by the following restrictions:

- a. Licensee may Distribute or Communicate to the Public the Work only under the terms of this License. Licensee must include a copy of, or a copy of the Uniform Resource Identifier (URI) for, this License with every copy of the Work Licensee Distributes or Communicates to the Public. Licensee may not offer or impose any terms on the Work that restrict the terms of this License or the ability of the recipient of the Work to exercise the rights granted to that recipient under the terms of the License. Licensee may not sublicense the Work. Licensee must keep intact all notices that refer to this License and to the provided warranties with every copy of the Work Licensee Distributes or Communicates to the Public. When Licensee Distributes or Communicates to the Public the Work, Licensee may not impose any effective technological measures on the Work that restrict the ability of a recipient of the Work from Licensee to exercise the rights granted to that recipient under the terms of the License. This Section 4(a) applies to the Work as incorporated in a Collection,

but this does not require the Collection, apart from the Work itself to be made subject to the terms of this License. If Licensee creates a Collection, upon notice from the Author or Related rights holder Licensee must, to the extent practicable, remove from the Collection, any credit as required by Section 4(d), as requested. If Licensee creates an Adaptation, upon notice from the Author or Related rights holder Licensee must, to the extent practicable, remove from the Adaptation any credit as required by Section 4(d), as requested.

- b. Licensee may Distribute or Communicate to the Public Derivative work only under: (i) the terms of this License; (ii) a later version of this License with the same License Elements as this License; (iii) the Unported Creative Commons license or a Creative Commons jurisdiction license (either this or a later license version) with the same License Elements (e.g. an Attribution-Noncommercial-ShareAlike License 3.0 (Unported)) (“Applicable License”). Licensee must include a copy of, or a copy or the URI for Applicable License with every copy of each Derivative work Licensee Distributes or Communicates to the Public. Licensee may not offer or impose any terms on the Derivative work that restrict the terms of the Applicable License or the ability of the recipient of the Derivative work to exercise the rights granted to that recipient under the terms of the Applicable License. Licensee must keep intact all notices that refer to the Applicable License and to the provided warranties with every copy of the Work as included in the Derivative work Licensee Distributes or Communicates to the Public. When Licensee Distributes or Communicates to the Public the Derivative work, Licensee may not impose any effective technological measures on the Derivative work that restrict the ability of a recipient of the Derivative work from Licensee to exercise the rights granted to that recipient under the terms of Applicable License. This Section 4(b) applies to the Derivative work as incorporated in a Collection, but this does not require the Collection apart from the Derivative work itself to be made subject to the terms of the Applicable License.
- c. Licensee may not exercise any of the rights granted to Licensee in Section 3 above in any manner that is primarily intended for or directed toward commercial advantage or private monetary compensation. The exchange of the Work for other copyrighted and related rights works by means of digital file-sharing or otherwise shall not be considered to be intended for or directed toward commercial advantage or private monetary compensation, provided there is no payment of any monetary compensation in connection with the exchange of copyrighted and related rights works.
- d. If Licensee Distributes, or Communicates to the Public the Work or any Adaptations or Collections, Licensee must, unless a request has been made pursuant to Section 4(a), keep intact all copyright and related rights notices for the Work and acknowledge right of authorship to the Author or Related rights holder, reasonable to the medium or means the Licensee is utilizing by providing: (i) the name of the Author or Related rights holder (or pseudonym, if applicable) if supplied, and/or the name of the Licensor or Publisher if supplied for attribution (“Attribution Parties”) (ii) the title of the Work if supplied; (iii) to the extent reasonably practicable, the URI, if any, that Licensor specifies to be associated with the Work, unless such URI does not refer to the copyright or related rights notice or licensing information for the Work; and, (iv) consistent with Section 3(b), in the case of an Adaptation, a credit identifying the use of the Work in the Adaptation (e.g., “French translation of the Work by the Author or Related rights holder,” or “Screenplay based on original Work by the Author or Related rights holder”). The credit required by this Section 4(d) may be implemented in any reasonable manner; provided, however, that in the case of a Adaptation or Collection, at a minimum such credit will appear, if a credit for all contributing authors or Related rights holders of the Adaptation or Collection appears, then as part of these credits and in a manner at least as prominent as the credits for the other contributing authors or Related rights holder. For the avoidance of doubt, Licensee may only use the credit required by this Section for the purpose of attribution in the manner set out above and, by exercising Licensee rights under this License, Licensee may not

implicitly or explicitly assert or imply any connection with, sponsorship or endorsement by the Author or Related rights holder, Licensor and/or Attribution Parties, as appropriate, of Licensee or Licensee use of the Work, without the separate, express prior written permission of the Author or Related rights holder, Licensor and/or Attribution Parties.

- e. For the avoidance of doubt: The restrictions mentioned above (4(a) and 4(b)) do not apply to those parts of the work considered to fall within the definition of a "work" under this license exclusively because they meet the criteria of the sui generis database right under the national law.

- f. For the avoidance of doubt:

**Voluntary License Scheme.** The Licensor reserves the right to collect royalties, whether individually or, in the event that the Licensor is a member of a collecting society that administers voluntary licensing schemes, via that society, from any exercise by Licensee of the rights granted under this License that is for a purpose or use which is otherwise than noncommercial as permitted under Section 4(c).

- g. "Non-economic rights of the Author and Related rights holder (Moral Rights) remain unaffected to the extent they are recognized and not waivable by applicable law."

## **5. Representations and Warranties**

The Licensor represents and warrants that:

- (a) The execution and performance of this License are within the Licensor's powers, and do not contravene any applicable law,
- (b) Licensor has full ownership title in the Work being licensed, and that there is no legal impediment to the Licensor proceeding with the licensing,

## **6. Limitation on Liability.**

Beyond the breach of warranties contained in Section 5 and required by the law or other applicable law, Licensor is liable for damages only in cases of intentional damage caused by action or inaction by negligence.

## **7. Termination**

- a. This License and the rights and obligations granted hereunder will terminate automatically upon any breach by the Licensee of the terms of this License. Natural persons or legal entities who have received Adaptations or Collections from the Licensee under this License, however, will not have their licenses terminated provided such persons remain in full compliance with those licenses. Sections 1, 2, 5, 6, 7, and 8 will survive any termination of this License.
- b. Subject to the above terms and conditions, the license granted here is valid for the duration the Licensor's economic rights in the Work. Notwithstanding the above and without notifying the Licensee, Licensor reserves the right to release the Work under different license terms or to stop distributing the Work at any time; provided, however that any such election will not serve to withdraw this License (or any other license that has been, or is required to be, granted under the terms of this License), and this License will continue in full force and effect unless terminated as stated above.

## **8. Miscellaneous**

- a. Each time the Licensee Distributes or Communicates to the Public the Work or a Collection, the Licensor offers to the recipient a license to the Work on the same terms and conditions as the license granted to the Licensee under this License.
- b. Each time the Licensee Distributes or Communicates to the Public an Adaptation, the Licensor offers to the recipient a license to the original Work on the same terms and conditions as the license granted to the Licensee under this License.

- c. If any provision of this License is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this License, and without further action by the parties to this License, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.
- d. No term or provision of this License shall be deemed waived and no breach consented to unless such waiver or consent shall be in writing and signed by the party to be charged with such waiver or consent.
- e. This License constitutes the entire agreement between the parties with respect to the Work licensed here. There are no understandings, agreements or representations with respect to the Work not specified here. Licensor shall not be bound by any additional provisions that may appear in any communication from Licensee. This License may not be modified without the mutual written agreement of the Licensor and Licensee.

### **9. Applicable Law**

Unless otherwise agreed by the parties to this contract (Licensor and Licensee) this License should be governed by Armenian Law.

### **Creative Commons Notice**

Creative Commons is not a party to this License, and makes no warranty whatsoever in connection with the Work. Creative Commons will not be liable to Licensee or any party on any legal theory for any damages whatsoever, including without limitation any general, special, incidental or consequential damages arising in connection to this license. Notwithstanding the foregoing two (2) sentences, if Creative Commons has expressly identified itself as the Licensor hereunder, it shall have all rights and obligations of Licensor.

Except for the limited purpose of indicating to the public that the Work is licensed under the CCPL, Creative Commons does not authorize the use by either party of the trademark "Creative Commons" or any related trademark or logo of Creative Commons without the prior written consent of Creative Commons. Any permitted use will be in compliance with Creative Commons' then-current trademark usage guidelines, as may be published on its website or otherwise made available upon request from time to time.
