- a. to reproduce the Object, to incorporate the Object into one or more Complied Objects, and to reproduce the Object as incorporated in the Complied Object ; and

Where *sui generis* database rights of the Licensor (protection of database maker's rights) are recognized under the national law, the Licensor will waive these rights.

### 4. Restrictions

The license granted in Section 3 above is expressly made subject to and limited by the following restrictions:

a) The Licensee may distribute, publicly perform, publicly communicate or publicly display the Object only under the terms of this License. The Licensee must include a copy of, or the Uniform Resource Identifier (URI) for, this License with every copy of the Object the Licensee distributes, publicly performs, publicly communicates or publicly displays. The Licensee may not offer or impose any terms on the Object that restrict the terms of this License or the ability of the recipient of the Object to exercise the rights granted to that recipient under the terms of the License. The Licensee may not sublicense the Object. The Licensee must keep intact all notices that refer to this License and to the provided warranties with every copy of the Object the Licensee distributes, publicly performs, publicly communicates or publicly displays. When the Licensee distributes, publicly performs, publicly communicates or publicly displays the Object, the Licensee may not impose any technological measures on the Object that restrict the ability of a recipient of the Object from the Licensee to exercise the rights granted to that recipient under the terms of the License. This Section 4(a) applies to the Object as incorporated in a Complied Object, but this does not require the Complied Object apart from the Object itself to be made subject to the terms of this License. If the Licensee creates a Complied Object, upon notice from any Licensor the Licensee must, to the extent practicable, remove from the Complied Object any reference to such Licensor or the Creator as required by Section 4(b), as requested, by referring to such removal.

b) The Licensee may not exercise any of the rights granted to the Licensee in Section 3 above in any manner that is primarily intended for or directed toward commercial advantage or private monetary compensation. The exchange of the Object for other copyrighted objects by means of digital file-sharing or otherwise shall not be considered to be intended for or directed toward commercial advantage or private monetary compensation, provided there is no payment of any monetary compensation in connection with the exchange of copyrighted objects.

c) If the Licensee distributes, publicly performs, publicly communicates or publicly displays the Object or Complied Object, the Licensee must, unless a request has been made pursuant to Section 4(a), keep intact all copyright and neighboring rights notices for the Object and provide, reasonable to the medium or means the Licensee is utilizing: (i) the name of the Creator (or pseudonym, if applicable) if supplied, and/or if the Creator and/or Licensor designate another

The acknowledgement of authorship required by this Section 4(e) may be implemented in any reasonable manner; provided, however, that in the case of Complied Object, at a minimum such acknowledgement of authorship will appear, if an acknowledgement for all contributing authors of Complied Object appears, then as part of this acknowledgement of authorship and in a manner at least as prominent as the acknowledgement of authorship for the other contributing authors. For the avoidance of doubt, the Licensee may only use the acknowledgement of authorship required by this Section for the purpose of attribution in the manner set out above and, by exercising the Licensee's rights under this License, the Licensee may not implicitly or explicitly assert or imply any connection with, sponsorship or endorsement by the Creator, Licensor and/or Attribution Parties, as appropriate, of the Licensee or use of the Object by the Licensee, without the separate, express prior written permission of the Creator, Licensor and/or Attribution Parties.

Natural or legal persons who have received Complied Objects from the Licensee under this License, however, will not have their licenses terminated provided such natural or legal persons remain in full compliance with those licenses. Sections 1, 2, 5, 6, 7, and 8 will survive any termination of this License.
- b) Subject to the above terms and conditions, the license granted here is valid for the duration of author's and neighboring rights in the Object. Notwithstanding the above, Licensor reserves the right to release the Object under different license terms or to stop distributing the Object at any time; provided, however that any such election will not serve to withdraw this License (or any other license that has been, or is required to be, granted under the terms of this License), and this License will continue in full force and effect unless terminated as stated above.

- b) If any provision of this License is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this License, and without further action by the parties to this agreement, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.
- c) No term or provision of this License shall be deemed waived and no breach consented to unless such waiver or consent shall be in writing and signed by the party to be charged with such waiver or consent.

There are no understandings or agreements with respect to the Object not specified here. Licensor shall not be bound by any additional provisions that may appear in any communication from the Licensee.
