Costs of Field Network Europe Conference

There are three sets of prices: one for those with institutional support for their visit to the Conference and/or training, one for those who will be covering all expenses themselves, and one for participants in The Field who are coming as guests. This is our effort to support the Conference while making it as broadly accessible as possible. If you are in an unusual situation or are having trouble gathering the funds to come (for example, if you have institutional support but they are not funding you for the full amount) please contact us.
