The project, entitled ***Up Close and Personal***, has utilized re-purposed clothes to tell stories. Since January 2012, participants have engaged in activities such as sewing, stitching, and screen printing to depict personal stories and memories through their clothing items that became part of a larger installation. In addition, a fun fashion shows on May 30th and May 31st will be a part of the project to celebrate the creative reuse of old garments.
