The Conference includes three types of presentations

Key Note Presentations on the main topics of the Conference selected by the Program Committee;

Contributed papers or posters proposed by authors;

Special Sessions or Workshops proposed from people working in a special topic of the chaotic field

Every Special Session includes 4-6 presentations. Two or more special sessions form a Workshop

The session organizer is responsible for the selection and the review process of the papers of his session.

A collection of the best papers presented in the three previous CHAOS Conferences are included in the following books published by World Scientific

1. Topics on Chaotic Systems: Selected Papers from the CHAOS2008 International Conference, C. H. Skiadas et al. Eds, World Scientific, 2009.

2. Chaotic Systems: Theory and Applications, C. H. Skiadas and I. Dimotikalis, Eds, World Scientific, 2010.

3. Chaos Theory: Modeling, Simulation and Applications: Selected Papers from the CHAOS2010 International Conference, C. H. Skiadas et al. Eds, World Scientific, forthcoming.
